<p>*Everway www.everway.com</p>	<p>Gustavo Ebermann 07908642535 g.ebermann@everway.com 1 Orchard Way, Antrim, BT41 2RU Northern Ireland</p>	<p>At Everway, we provide inclusive, easy-to-use software tools that help everyone understand and be understood—regardless of their needs, background, or ability. Our tools are trusted by over 250 million users worldwide and are designed to remove barriers to learning, communication and achievement.</p> <p>Our core products include Read&Write, a literacy support toolbar that assists with reading, writing, comprehension, and organisation. OrbitNote is our inclusive PDF tool that allows students to read, write and collaborate directly on documents. Equatio makes maths accessible by enabling students to type, handwrite or speak equations, while providing visual and auditory support.</p>	<p>Everway offers flexible pricing tailored to the needs of each school, college, or organisation. Our most popular product, Read&Write, is available through a simple domain-wide site licence. This provides access for all staff and students—both in school and at home—with pricing based on student roll size. As a guide, a typical UK primary school might pay around £1,000 per year for a full licence, while a typical UK secondary school might pay around £2,250. Larger secondaries and multi-academy trusts benefit from volume pricing and multi-site discounts. OrbitNote and Equatio can be purchased separately or bundled with Read&Write for added value. ExamWritePad, our secure exam word processor, has a fixed price of £499 for site-wide licensing.</p>

*Reading Wise https://readingwise.com/	Caroline Shepherd Community Manager ReadingWise info@readingwise.com 0117 333 6118 Twitter: @CaReadingWise	Using a broad range of innovative techniques, we provide schools with a ground-breaking literacy intervention programme with amazing results. Using algorithms, online sessions adapt to each learner's ability, delivering appropriate content to optimise learning and progression through the programme. A government-funded study found that ReadingWise improves a pupil's reading age 78% faster than usual classes. Use ReadingWise from Reception through to Year 6 Reading SATS to support whole class reading skills and provide additional development for strugglers including EAL and SEN. Use ReadingWise in KS3 and KS4 to deliver rapid reading improvement targeting the need. Sessions can take place with the learning support team, in the library or in the classroom. The live progress tracking reports are ideal for Pupil Premium and Ofsted reporting.	Will offer discounts to participating local authority AT library pilots.

		interactive access to grade level content while improving their students' communication and literacy skills.	
*Touch-type Read and Spell Ltd https://www.readandspell.com/	Liz Day liz@readandspell.com 02087207180 Chislehurst Business Centre 1 Bromley Lane Chislehurst Kent BR7 6LH	The TTRS platform is more than a typing tutor - it's an assistive literacy tool that integrates touch-typing, phonics, and multisensory learning. It's finely tuned to support neurodiverse learners and those with literacy or motor challenges. With structured, adaptive lessons, immediate feedback, and motivational design, it enables users to build literacy, confidence, and independence while acquiring a lifelong digital skill. What It Offers 1. Multisensory Typing Course Touch-typing and literacy: Users begin by learning to type the vowels (a, e, i, o, u), hearing each letter and word spoken as they type, and blending visual, auditory, and tactile cues. Structured progression: The course is organised into 24 levels with 31 bite-sized modules each, with over 4,500 words that increase in complexity, emphasising accuracy over speed. Additional subject modules covering a wide range of topics, both National Curriculum-linked and related to personal hobbies and interests.	Will be open to discussing discounts for participating local authorities.
*Widgit https://www.widgit.com/	1st Floor, Bishops House Artemis Drive Tachbrook Park Warwick CV34 6UD United Kingdom Phone: 01926 333680 Email: info@widgit.com	We are Widgit, a pioneering software company with a passion for symbols-based communication. We empower individuals to express themselves independently through symbols, aiding comprehension and understanding across any environment. We primarily cater to individuals with communication difficulties of all ages, including autistic people, learning disabilities, and speech impairments. Our solutions are designed to support educators, therapists, and caregivers by enhancing inclusive learning environments while promoting meaningful interactions. Our Widgit Online and InPrint software give users access to our entire symbol language, designed to meet the unique needs of symbol users across a multitude of settings. From flashcards to vocabulary lists to fully symbolised books, our solutions make it easy to personalise a wide range of materials – helping to facilitate communication in the everyday world.
