# Occupational Therapy:

## assistive technology and augmentative and alternative communication interventions

Supporting communication, independence and participation for children and young people.

**When:**
7/1/27, 9:30 to 12:30

**Where:**
NCVO Society Building, Kings Cross

Join us for a focused session designed for occupational therapists who want to deepen their understanding of their role in technology interventions, accessibility and augmentative and alternative communication in a paediatric caseload.

**Cost**
Delivered for free (funding provided by the Elizabeth Casson Trust)

**Training provided by**
occupational therapists specialised in Assistive Technology and Augmentative and Alternative Communication

**Speakers**
Kate Ali and Abigail Bolland (Great Ormond Street Hospital) and Charlie Danger (CENMAC)
